the weaver's IDEA BOOK - Jane Patrick

This [book](#) is written for those working on rigid heddle looms, but is certainly full of great ideas and projects for any weaver. It includes several finger controlled weaves; pick up methods (yarn - not people!), several rug or wall hanging weaves and lots of other warp and weft faced fabrics. For those wanting to use 2 heddles on the rigid heddle loom - there's a whole chapter devoted to this process. The book contains explanations, drafts, pictures and projects it's a great resource!

Let me know if I can be of any help to you, and by all means - email pictures of your projects - I love seeing what you've made from my yarns! And with your permission it will be posted on our gallery page.

Sincerely,

Barb Gallagher
