Dear Moya,

Last month I asked how you organized your stash - Thanks for all your responses!

Most of you seem to have your own method for organizing: either by fiber, yarn, color, etc.....BUT the one common thing was the use of **clear plastic bins**. So now the secret is out.....buy more clear plastic bins.

New Colors of Dyed ALPACA!

Everyone loves jewel tones, right?
Here are some great new colors of the Heather Dyed Alpaca yarns.....stunning.

Knitters: sport weight US# 5; 6 st/in
Or as you see fit.

Weavers: 8-10 epi

ROSEPATH TOWELS

Here is the first in hopefully a series of 'teach yourself with towels' kit. This is a 4 harness pattern with 9 different treadlings to make 9 different towels. Kit includes yarn and detailed instructions.

Shown here in natural with raisin.

As always - thanks for your continued support - and let me know if I can help.

Sincerely,

Barb Gallagher
