## Dear Moya,

Our spring seems late this year, but I so enjoy seeing my hills come alive with redbuds, dogwoods, and green hills. Hope you're having a beautiful spring too!

## NEW YOD COLORWAYS !

Tropical

Pinks

We're in the process of developing 2 new colorways and until we make our final decisions, you'll be seeing some listed as 'test' versions !

The colorway called "Tropical" is shades of orange, magenta & purples..... the proportions are still to be determined.

The other colorway is our version of "Pinks" and it will stay in flux and depend upon the mood of the dyer.....so sometimes more pinks and sometimes some peachy shades added.

## MORE HEMP

Just received a new shipment of natural hems, sizes 10/2 and 10/3. These are wet spun and look more like natural linen than anything else I've seen. Those numbers are "hemp" numbers - so be sure to pay attention to the ypp (yards per pound) listed with them.

I see myself using these for towels (which is always one of my first projects with any new yarn appropriate to this use) I'll be waiting to see what YOU do with this.

If you need to add some color - the 10/3 hemp and the allhemp 3 are equals.

Thanks!
