## Dear Moya,

Grass is growing, flowers are blooming, garden is producing.....AND, I've had some time to weave!  
Hope your summer is off to a good start too.

## BEADED YARN

Harlow Yarn

This new yarn has the beads right in it!  
How easy is that ?

Picture shows a crocheted Infinity scarf done by Julee Uhrig. You can find similar patterns for knitted scarfs too. We also have a free pattern from SWTC called a Garter Shawl.

You only need 1 skein of this yarn for either project

## MINI WARPING REEL

Another addition to our line of Hokett Would Work - beautiful tools for fiber folk. This is mainly for weavers, but other yarnies might find other uses - let me know if you do : )

This reel will fold like others and will handle 5 - 7 yards. of warp.

As always.....thanks for your continuing support !

Sincerely,

Barb Gallagher
