Dear Moya,

Cool nights ? Perfect weather to pull out those lovely shawls and sweaters you've made - and make plans for some new ones!

PERUVIAN TWEED ALPACA

Here's an example of something wonderful you can make from this "heavenly" yarn. Lynn knit this fabulous hat on size 5 needles. You can get at least 2 hats from 1 skein or a hat and gloves. No matter which color you choose - you're

going to love it! Use your own pattern or ask for ours when ordering this yarn.

Peruvian Tweed Alpaca is available in 9 different tweeds and has 600 yards per skein.

Weavers - yes, you can absolutely weave with it using a sett of 8 - 10 epi.

MAURICE BRASSARD 8/2 COTTON

We are now stocking these yarns in size 8/2 cotton - I will add new colors as I get them in, and I will gladly custom order any of these that you need.

This is a yarn that offers a wide range of color choices - currently 80 colors so you can create a beautiful palette.

These same colors are available in other sizes. If you need info on this, let me know.

Connect with the Loft. Friend us on Facebook

And, pin us!!

Sincerely,

Barb Gallagher
