Dear Moya,

I am really enjoying this weather with the warm sunny days and the cool nights - hope you are enjoying this month too!

PINKS

The featured yarn this month is our PINKS colorway. We added a touch of peach to give it some pizzazz - and so far it has been well received.

The Pinks

This color is available in many fibers and weights - let us know what you need

Two New Yarns

These yarns are in limited supply

1) Squiggles - a soft corespun wool yarn with a nylon wrap to give it its texture. Light worsted weight @ 1050 ypp or 525 yards per 8 ounce skein - currently available only in natural.

Squiggles

2) Tencel - This yarn is a bit heavier than my other tencel it has 2800 yards per pound - or 1400 yards per 8 ounce skein. It will dye beautifully. This would be considered a lace weight yarn.

Hurry - when these yarns are gone - they're gone!
