Dear Moya,

Don't you just love a nice fresh new year !! I enjoy making plans for things to do and things to weave. Hope your new year has started nicely, inspite of the recent cold.

ALEXIS GOLD - the "sparkly" yarn

This yarn has been SO popular the last few years, that I've never been able to have any in stock to share with you. The 'white dots' you see in the picture are actually gold metallic!

It has been used for shawls, scarfs, and even to make a dressy shell for evening wear. I think a short evening jacket would be wonderful!

Fiber content is 95% rayon and 5% gold metallic with 400 yds per 8 ounce skein. The colors are deep and every skein is beautiful.

TIME TO SIMPLIFY - SALE!!

My resolution this year is to simplify my life to make time for the things I enjoy.

So - I started by simplifying the stock in my shop which resulted in a lot of nice things being marked down: books, silk yarns, beaded yarn plus some more basic yarns etc.....

Zephyr

As always - I appreciate your continued support!
