Dear Moya,

These purples remind me of my iris and lilacs that are finally blooming! YEAH SPRING !

SILK YARNS

Everyone seems to be trying silk lately - and I can't blame you - it is wonderful to work with! If you have any questions about any of these yarns, please email me your questions.

I carry lots of silk and silk blend yarns in weights to suit just about anyone. Naturals as well as dyed. If you need any help deciding what you need or will work for your project - let me know.

SILK KITS

Not sure what to try? Check out these kits. One is for knitters or weavers - two of these are for weaving scarfs. The packaging is wonderful in case you'd like to give or receive one !

You can check out all the details on the linked page.

As always - your continued support is very much appreciated !
