**Dear Moya,**

Time to weave (yeah!) - I'm having fun this summer -  
hope you are too!

## [Natural wools from Wyoming - 100% USA](#)

I am now carrying Mountain Meadow Wools in sport and worsted weights - and in gorgeous shades of gray. I've put them into 8 oz skeins for better pricing for you. The yarn is very springy!

Mountain Meadow Wool Company is committed to being a green company with a respect for the environment we live in and for the ranchers they represent. All their wool is traceable back to the ranch where it is grown.

## [Silks from Himalayan Yarns](#)

One of their yarns is Recycled Silk yarn. Some of the silk comes from old saris, but at this point in time it's more likely that your recycled silk yarn is made from industrial silk fiber waste collected from weaving mills in India. Any time a roll of fabric is cut off a weaving machine there is a certain amount of threads and fabric wasted. These are mostly what are used. The fabric is torn apart and integrated with the fiber and spun into yarn which is soft, lustrous and rich in deep colors of mostly Magenta/ Red/ Purple

We also carry other styles of their silk yarns and ribbons.

As always - thanks for your continued support!

**Sincerely,**

Barb Gallagher
