Dear Moya,

I love fiber folks! As a group you are some of the nicest, most caring and most honest people I know.....and your enthusiasm is what makes this all worthwhile !

Happy Halloween

PAINTED WARPS FOR SCARFS

New! We're now painting warps.
First up - we have warps from 2 different fibers and we have 5 different colors in each. Each warp will make 2 scarfs.

TUBE HOLDER

This is a great tool for almost every weaver. If you are looking for a way to avoid twist in the warps you wind with tubes - give this tool a try and you'll be hooked.

Great yarn for a COWL!

Periwinkle is a thick & thin bulky 100% Wool yarn that is perfect for the popular cowls this year. It's soft & luscious!

Sincerely,

Barb Gallagher
